

## If I Would I Could

words and music ©2005 Marius McKee

If I could I would, if you just said yes  
I don't know if I should, I haven't asked you yet  
Next time I get the chance I'm gonna hold you close  
I'm gonna kiss you best just where you like it most

*refrain*

And I wanna know, before I ask you  
If you gonna show, and what do I want to do  
I wanna make love, yeah I wanna make love  
I wanna make love, yeah I wanna make love

When will I get the chance to kiss your gorgeous lips  
When will I taste your wine and take a little sip  
Next time I get the chance to talk to you alone  
I'm not gonna say a word, I'm gonna hold you in my arms

*refrain*

So when my chance comes to me, and I hope it's soon  
I'll break every taboo, I'm gonna break every rule  
And finally you say to me just what I want to hear  
I can kiss you anytime, why not right now right here

*refrain*
