

My Love Is Like A Diamond

words and music ©2005 Marius McKee

My love is like a diamond, shining in the dark
My love is like a diamond, shining in the dark
And the reason why it's shining
Is the love for you in my heart

My love is like a beacon, shining o'er the waves
My love is like a beacon, shining o'er the waves
And the reason it shines so bright
Is cos' you gone away

My love is like a fire, burning in the night
My love is like a fire, burning in the night
And the reason why it's burning
Cos my soul needs your light

My love is like the sun, Shining brightly o'er the sea
My love is like the sun, Shining brightly o'er the sea
And the reason it burns all day long
Is to guide you back to me

My love is like a gloworm, shining up above
My love is like a gloworm, shining up above
And its gonna glow so bright
Till you bring back my love

My love is like the embers, sparkin in a fire
My love is like the embers, sparkin in a fire
And reason it sparks so bright
As my love for you gets higher
