

# What Can You Do About Him

words and music ©2005 Marius McKee

Have you got a love that hurts  
That burns and freezes all at once  
That is free and yet contained  
And is so sad but so much fun

*refrain:*

What can you do about  
What can you do about  
What can you do about him?  
What can you do about  
What can you do about  
What can you do about him?

Can you say goodbye hoping he says hello  
And you won't be surprised when he's got to go  
Will it work out will it be understood  
Will he do all the things you expected he would

*refrain:*

Sooner or later, you will see  
Whether freedom's all it's cracked up to be  
I hope you find your kind of man  
The way you are gives all the signs to me

Do you know who's on your side  
Maybe you don't realise  
I hope your lover will be a friend  
Then your search will be at an end

*repeat refrain*
